## Swimming with dolphins dream comes true

■ Susan Halsey swam with dolphins in a Florida theme park

A long-term resident of a WGC care home has achieved her lifetime ambition to swim with dolphins.

Susan Halsey, 57, has lived at the Life Opportunities Trust's house at Sewells for several years as she has learning difficulties.

After she saved for four months, staff arranged a trip,

accompanied by two support workers, to Florida, where Susan swam with the aquatic mammals at the Discovery Cove theme park.

Her care home manager Ellie Barresi said: "Susan had always wanted to swim with dolphins but thought it was just a fantasy.

"But thanks to our person-

centred planning, our staff made sure this was one dream which really could come true."

Susan, whose room is covered with pictures of the animals, said: "I got to swim with the dolphins and I was also taken on trips to see Mickey Mouse and Donald Duck.

"It was very special."
